Portfolio

## Profile Summary

Proficient in **HTML**, **CSS**, **JavaScript**, **ReactJS**, and **Node.js**, with a strong focus on creating engaging, responsive web applications. Adept at bridging the gap between elegant design and efficient functionality to deliver seamless user experiences and scalable solutions.

## Experience

### Coding Ninjas

July 2023 – Feb 2024

#### Teaching Assistant

Gurugram

- Assisted over **500 students** with Web Development in React, providing comprehensive support through live coding sessions, tutorials, and personalized feedback to enhance their understanding of key concepts.
- Resolved complex code issues, leading to a **40% improvement** in processing time and a **25% increase** in system stability.
- Collaborated on curriculum updates to ensure alignment with industry standards and best practices.

## Projects

### Edumart / ReactJS, Node.js, MongoDB / GitHub

December 2024

- Developed an e-commerce platform tailored for college students, offering **affordable gadgets, study materials**, and **accessories**.
- Implemented **secure payment integration**, order **status tracking**, and a dynamic shopping cart for seamless user experience.
- Designed a scalable and responsive interface using modern frameworks, ensuring accessibility and optimal performance across devices.

### Shopsee - Ecommerce Store / ReactJS, Tailwind / GitHub | LIVE

September 2023

- Designed and developed a feature-rich e-commerce web application using **React.js** and **Tailwind CSS**, driving a **40% increase in user engagement** and a **25% decrease in bounce rate** through an intuitive and visually appealing user interface.
- Delivered seamless user experience with responsive design optimized for desktop and mobile, backed by reliable **API integration** for real-time product updates and transactions.
- Implemented efficient cart management, enabling instant product updates, quick cart additions, and fluent web UI, ensuring scalability for expanding inventory and user base.

### Car Rental / HTML, CSS, JavaScript / GitHub | LIVE

November 2023

- Built a static frontend using **HTML**, **CSS**, and **JavaScript**, focusing on clean layouts and intuitive design for a seamless car rental experience.
- Designed a **responsive UI** with modern CSS techniques, ensuring **compatibility** across devices for enhanced usability.
- Developed Implemented **JavaScript-driven interactivity**, creating a dynamic and engaging browsing experience for users.

### Quiz-App / JavaScript, CSS / GitHub | LIVE

July 2024

- Developed an integrated Quiz Application with dynamic question generation with the help of JavaScript and logic for **scoring in real-time**.
- Implemented modern CSS for the responsive UI design which ensures that the functionality of a layout follows the fluidness of devices and the sizes of their screens.
- Implemented **local storage** to track user progress and changed event handling system to make them faster and more interactive.

## Skills

**Languages:** HTML/CSS, JavaScript,

**Databases:** MongoDB, MySQL

**Frameworks/Libraries:** React, Bootstrap, Node.js, Tailwind CSS

**Developer Tools:** VS Code, Git

**Soft Skills:** Good Communication, Problem-solving and Teamwork, Active Listening

## Education

### Kumaun University, Uttarakhand

2019 – 2023

Bachelor's in computer applications (BCA)

CGPA: 7.2

## Training's

### Coding Ninjas

Aug 2022 – Dec 2023

Full Stack Web Development, Data Structures and Algorithms

Frontend / Backend / React / Data Structure
